Universal floor nozzle		■
Crevice nozzle		■
Upholstery nozzle		■
Soft dusting brush		■
Accessories holder		■
Small wall bracket		■
Dust sensor		■

■ Included in the scope of supply.

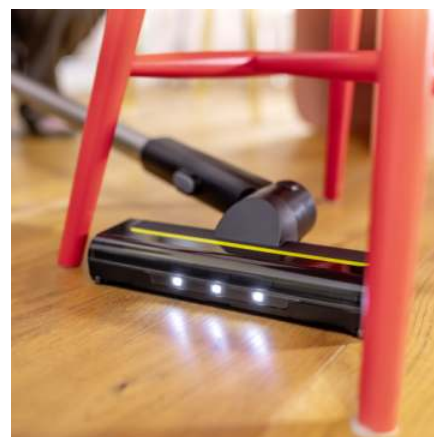

Auto-sense technology

- Intelligent dirt detection optimises cleaning performance in auto mode. This mode automatically detects the amount of dirt and adjusts the suction power accordingly in three stages.

Clean Control Display

- The display provides constant updates on the cleaning process and the device status – including the cleaning mode, the degree of dirt on the floor (when in auto mode) and the battery status.
- In auto mode, the display uses a colour code to indicate the degree of dirt: turquoise for none to little, blue for medium and purple for heavy soiling.

180° swivel joint and LED lighting

- The VCS 3 Nano moves effortlessly around any obstacle and lights up even the darkest corners – for thorough cleaning without compromise.

VACUUMS				
Filters				
Fine filter	1	2.863-380.0	For clean air and long-lasting, powerful performance from your battery-powered vacuum cleaner: filters the finest particles from the air and protects the motor.	■
HEPA hygiene filter	2	2.863-381.0	The HEPA hygiene filter (EN 1822:1998) reliably removes the finest particles from the vacuum cleaner's exhaust air and ensures noticeably purer room air.	■

■ Included in the scope of supply. □ Available accessories. ○ Detergents.
