

HD770G Durable RGB External Hard Drive

WARRIOR OF LIGHT

HD770G External Hard Drive

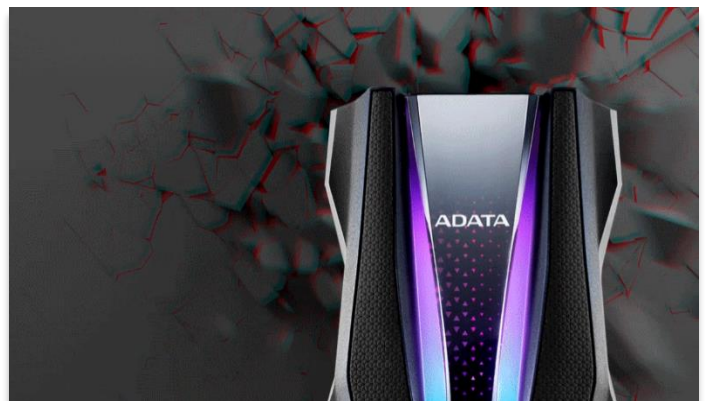

Introducing the world's first durable external hard disk with RGB lighting. With the HD770G, not only can you store all your games and data, but store them with flair. What is more, the HD770G exceeds the IP68 standard meaning it's waterproof and dustproof and is shock-resistant with its robust triple-layer construction. What more could you ask for!

Store with Flair

The HD770G sports a design like no other external HDD thanks to its distinct chamfered edges and two light-beam-shaped RGB strips that'll show your flair.

Military-Grade Tough

Meeting the MIL-STD-810G 516.6 standard, this external HDD can survive nasty falls from up to 1.22 meters, protecting everything you have stored inside from harm.

Protect Your Games from Water and Dust

The HD770G offers the ultimate protection against dust and water that goes beyond the highest-level IP68 standard. In particular, the HDD is waterproof to the point where it can withstand 120 minutes submerged in 2 meters of water.

Features

- Two light-beam-shaped RGB strips
- Military-grade shock-resistance – Drop-tested from 1.22m
- Beyond IPX8 Waterproof (Can survive 2m of water for 120 minutes)
- IP6X dustproof
- Patented Port Covers
- Gaming Stockpile
