MAN truck with low loader and JCB wheel loader, 198x38x53mm

Siku 1790 play vehicle/play track:

Taking its heavy load to the construction siteWith deceptive ease, the 3-axle tractor pulls the JCB wheel loader on its 3-axle low loader to the next construction site. Even off-road, the HGV wheels with tyres made from rubberised material find enough grip. Time to unload: The access ramp can be folded down, and the heavy JCB backs off slowly. For demanding construction site use, the driver's cab from the MAN TGX series and the low loader are manufactured from metal. The loading arm and the wheel loader's huge excavator bucket are movable, and after unloading they immediately move to the working position.
