JUP53100 100W GaN USB-C® 5-Port Charger

Performance	
Charger compatibility *	Universal
Power source type *	AC
Charger type *	Indoor
Number of simultaneously connected devices (max) *	5
Special features	The 100W GaN USB-C® 5-Port Charger can simultaneously charge 5 devices. The charger uses GaN technology, which enables it to deliver a significant amount of power in a small package. All the USB-C® ports support Power Delivery 3.0/2.0 technology, the USB™ Type-A port supports QC™ 22.5W fast charging. When using just one of the ports, the first or second port can support up to 100W, enabling MacBook®, laptops, tablets, handheld game consoles, and other mobile devices to charge at the fastest rates possible. The third and fourth ports support up to 20W, enough for charging a second tablet or phone. The product maintains 45W on the first port, while other port(s) is/are being used. So, you can seamlessly charge your laptop and other devices at the same time. With its small and light design, the charger can attach more firmly to the wall, reducing the chance of the charger falling off the wall. Equipped with safety features which include: surge, overcharging, overcurrent, and overheating protection to keep your devices protected.
Compatibility	Suitable for mobile phones, tablets, consoles, and notebooks
Design	
Product colour *	White

Packaging data
