Siku Mercedes-Benz Sprinter Police Police car model Preassembled 1:50:

The more complex the police operation, the more important is reliable communication between the task forces. Interaction by satellite communication functions rapidly and smoothly, even in crisis or catastrophe situations. The siku police Sprinter from Mercedes Benz is provided with the appropriate equipment. A rotating satellite dish on its roof can be folded down during travel. The doors on both sides of the driver's cab can be opened, as can the two doors on the right hand side and at the rear. The corners of the box body are marked by four blue lights. The typical silver/blue colouring of the Police Sprinter is complemented by all-round yellow signal marking, as well as "Polizei" and "Polizei Überwachungseinheit" lettering.
