**Siku Front loader accessories:**

The series of attachment devices for SIKUFARMER32 tractors with front loaders is continued with this exceptional set. It consists of a work platform, snowplough, sweeper brush, and tree trunk claws. The work platform is also equipped with a door. The snowplough can be moved to left and right, and the tree trunk claws have a free-hanging claw component. The distinguishing feature of the sweeper brush is the supplied pallet fork. This can be used to pick up the brush. The tines of the new pallet fork of the Fendt 939 Vario front loader tractor (#6778) from the SIKUCONTROL32 series also fit into the holders of the sweeper brush.
